Young Girl Married

As Death Draws Near

As Death Draws Near
MONTGOMERY, Ala., May 13.
(P)—A marriage ceremony uniting
a 16-year-old girl given two days
to live after swallowing poison and
her 18-year-old sweetheart was performed in a hospital ward here today. Marguerite Hardy, who admitted that she sought to end her life
when she thought the boy she loved
teleponed another girl, became the
bride of Willie R. Crittenden only
by summoning all of her strength
to speak the vows of marriage.

She took poison Monday soon
after she and Crittenden had been
together. Today she was told by
the attending physician that she
might expect to live two days. Instantly she expressed a wish that
she and her sweetheart wed. Crittenden, who had remained close to
her ward, welcomed the proposal
and a license was procured. The
marriage took place with few witnesses.

Solicitor Tells Masonic Club Work of Investigation Not Completed.

Appealing to the people of Atlanta to "stand guard over the cleansed city government lest the old gang rally and render null and void the work of the recent graft investigation." Solicitor John A. Boykin Wednesday recounted highlights of the municipal probe in a Masonic Club address on "Lessons Growing Out of the Graft Investigation."

Mr. Boykin cited the administration

Mr. Boykin cited the administration of Mayor Ragsdale as "the most corrupt ever inflicted upon the people of this city; declared "that embracery and bribery, as illustrated in the reign of the 'Big Boss' of the clerk's office, were the paramount crimes in the decalogue," and intimated that although the old system of graft had been uprooted "the work of the investigation has not been completed yet."

Touching on the background of political conditions that led to the "graft administration." the solicitor referred to the investigation of the bunco gang several years ago, which resulted in a shake-up of the police department. "What happened? The public soon forgot about it and we drifted back to the same condition," Mr. Boykin asserted. "Next they let the same gang hand-pick the man to be made mayor, under whose administration the grafting in public offices reached its highest pitch."

In his talk the solicitor mentioned a number of "side lights" of the investigation as illustrations of the open corruption that was being practiced while "the city was in the clutches of a highly organized gang of high-binders, blackmailers and grafters." In one of these instances he told of a citizen who went to the clerk's office to have the city repair the sidewalk in front of his home "a claim to which the citizen was rightly due."

But it is the efficient design of the fire-pot and radiator which gets more heat from fuel.

The deep fire-pot insures better combustion. The oversized radiator makes the gases and smoke escaping from the fire-pot travel from 15 to 20 feet before going up the chimney—squeezing from them every last possible bit of heat.

Amazing Torsiographic tests prove that The Dictator's

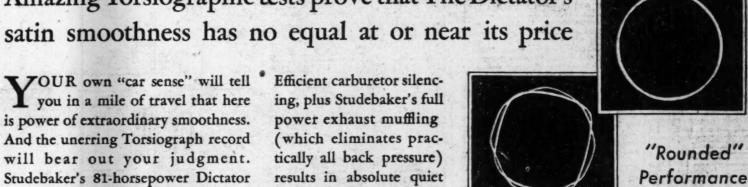

YOUR own "car sense" will tell you in a mile of travel that here is power of extraordinary smoothness. And the unerring Torsiograph record will bear out your judgment. Studebaker's 81-horsepower Dictator engine is, by scientific tests, the smoothest Eight within hundreds of dollars of its price.

The Dictator's 9-bearing crankshaft is balanced, not only statically but dynamically, on machines that are marvels of precision. A vibration damper of the most effective design is used. Costlier dual Carburetion and manifolding, by feeding exactly proportional amounts of fuel to each cylinder, avoid "starving" of end cylinders and assure smooth and even power impulses.

Efficient carburetor silencing, plus Studebaker's full power exhaust muffling (which eliminates practically all back pressure) results in absolute quiet such as characterizes the most costly cars.

And this background of luxurious smoothness throws into bold relief the most brilliant of all The Dictator's advantages - Free Wheeling. Borne on the wings of momentum, you glide in silence, able to shift easily, quietly and without touching the clutch, saving 15% to 20% on gas and oil.

No other car in The Dictator's price range is so good a car, so smooth a car, or so satisfying a car! Drive it to prove it!

The Torsiograph, one of the most nearly infallible of automotive laboratory instruments, records accurately the vibration of any rotating shaft. The closer the record chart approaches a true circle, the more nearly perfect the balance of the crankshaft. Above are shown the Torsiographic records of The Dictator Eight nine (9) bearing crankshaft and those of two other eights of double The Dictator's price. # Insurgent Threat To Bar Moses' Re-election Seen

Echo of "Wild Jackass" BUSINESS LEADERS Cry Indicated in Proposal To Discipline New Hampshire Senator.

BY GLADSTONE WILLIAMS.
WASHINGTON. May 13.—Rumblings of discontent between old guard and progressive elements of the reand progressive elements of the re-publican representation in congress, which for some months have threat-ened to give democrats organization control of both houses at the forth-coming December session, were enliv-ened today by reports that insurgent members are laying plans for discip-lining Senator George Moses, of New Hampshire.

lining Senator George Moses, of New Hampshire.

The New Hampshire senator, one of the leading luminaries of the old guard group, is slated for disciplinary action at the hands of progressive members of his party because of his now famous characterization of republican insurgents as "sons of the wild include:" wild jackass.

Moses is president pro tem. of the senate, an office of dignity and prestige which he finds pleasing. If plans now being agitated by some of the insurgents carry through, he will find a concerted move initiated to block his re-election, something that progressives would be easily able to accomplish either by casting their lot with the democrats or even declining to vote in the balloting over his successor. One would be about as effective as the other. The margin of strength between the two parties is so close in the new senate, just as it is in the lower house, that the change of one republican vote would probably be a deciding factor.

Because of this parity of strength, however, the irrepressible New Hampshire senator himself holds something of a whip hand and is said to be prepared to use it for dealing out retaliatory measures should such a course be necessary. He is represented as being in a frame of mind that will not permit him to stand by and witness his scalp taken without reaching out for a few progressive scalps at the same time.

Th: latter he could do by aiming his counter attack at the important committee chairmanships now held by insurgents. Senator George Norris. of Nebraska, for example, leader of the progressives, is chairman of the momitactures body, while stach other powerful committees such as foreign relations, public lands and Indian affairs are presided over by Borah, of Idahe; Nye, of North Dakota, and Blaine, of Wisconsin, respectively.

Hardly a one of these could be re-elected chairman if Moses should withhold his vote or throw his support to the slate of candidates to be put forward by the democratic caucus. Though counted among the regular of old guard regulars, in so far as the term is contrasted with the insurgent description of progressives, he nonetheless has a reputation for flying off on an individual tangent when the occasion impresses him sufficiently. He found such an occasion during the Roosevelt third party jaunt against Taft in 1912. And as for allowing himself to be sa

Nearly 2,000 guests, gathered in celebration of Chicago's 10-day trade jubilee and in honor of delegates to the recent International Chamber of Commerce convention in Washington, heard commercial leaders of the world appeal for mutual understanding of diverse viewpoints.

Josef Sachs, Swedish merchant prince, attributed the world depression to concentration of the gold supply in France and the United States, "England's reduced competitive ability," stabilization of French currency under par and of the Italian lira "at too high a value."

He recommended that national debts should be reduced to conform to the present value of money as an antidote for restriction on competition, and that all trade barriers between nations be removed, "as they will accentuate and prolong the economic crisis."

"More than 190,000,000 people have been cut off from the word 'consump-tion," he said. He reviewed Sweden's economic situation and said his country had suffered less from the depression than most countries because of sound credit, post-war reorganization and its wartime industry.

stated.

Councilman John White, of the fourth ward, one of the proponents of the daylight saving paper, which will be considered at a meeting to be held at 3 o'clock by the ordinance committee, said he would appear with a petition backed by more than 100 leading merchants, bankers, business houses and civic organizations requesting the committee and council to adopt the plan. Strong delegations of citizens favoring and opposing the change are expected to appear.

Unless Atlanta retail merchants post sufficient funds to enable payment of \$40,000 for electrical current, the whiteway lights must go, under the following:

Merchants' Association, suggesting that the merchants arrange to pay for the lights.

Hendricks pointed out that the lights cost about \$4.50 a month each lights cost about \$4.50, since the Georgia Power Company owns those poles.

While spectators chuckled, the mule was solemnly introduced, and Mrs. Harris' description of him in her advertisement read word for word. As the hilarity subsided somewhat, the mysterious farmer was disclosed as Superintendent H. B. Robertson, of the Cartersville schools, and the regular order of the program resumed.

Deep friendliness and gratitude toward The Constitution and Clark Howell, its publisher, were expressed by Mrs. Harris in her address which came midway in the formal program arranged for the afternoon. It was Mr. Howell, the celebrated novelist stated, who gave her the first practical encouragement toward a literary career by accepting and publishing in The Constitution her first story, and by giving her the opportunity to report for this paper a session of the Georgia legislature. The recent awarding of the Pulitzer prize to The Constitution was characterized by Mrs. Harris as a fitting recognition of the constructive policy which the paper, under Mr. Howell's direction, has consistently pursued.

Lee D. Peeler, president of the Cartersville Rotary Club, presided at the start of the meeting. He turned over the chairmanship to Dr. M. L. Brittain, Georgia Tech president and one of the original Ten Club members. Dr. Brittain introduced the speakers of the afternoon: Colonel F. J. Paxon, Monroe Neel, of Cartersville, Mrs. Harris, Clark Howell, Sr., Major John S. Cohen and Judge Marcus Beck. Each speaker paid high tribute to Mrs. Harris, to the charm of her personality as well as to her president and one of the original Ten Club members. The cabinet's decree confiscating Alfonso's property also ordered an investigation of all of his acts since the beginning of the Primo De Rivera dictatorship in 1923. It claimed that Alfonso had not been legitimately king since that time.

It charged Alfonso with using the royal palace to increase his personal fortune and declared that a search of the palace revealed documents to prove this assertion.

All Spanish banks and bankers were ordered to turn over Alfonso's property immediately to the minister of finance. The Bank of Spain was given charge of the royal possessions, foreign diplomatic and consular officials were ordered to check the king's investments abroad, and a committee of financial experts was ordered to incressigate his investments in Spain.

An investigation also was ordered into activities of the cabinets under Primo De Rivera and General Damaso Berengues, to determine fi ground for prosecution exists.

MACON, Ga., May 13.—(P)—
Fraudulent abstractions of money from the now defunet First National Bank of Sandersville are charged to L. B. Holt, the institution's former president, and Floy L. Holt, his son and assistant, in evidence presented in United States district court here for their alleged banking act violations covering a period of nearly two years. The third day of the trial was terminated at 6 o'clock this afternoon.

The cash abstractions, the government charges, were replaced from time to time by worthless notes on individuals and "sham" corporations and partnerships—"so as to maintain a proper balance of accounts for the purpose of deceiving examiners," and for the purpose, too, of "evading an established banking act regulation" which permits a loan to no individual of a sum in excess of 10 per cent of the combined capital and surplus.

United States Attorney W. A. Boo-

United States Attorney W. A. Bootle, however, has charged that Holt's indebtedness to the bank at its failure on March 14, 1929, was in excess of \$100,000—or more than the combined capital and surplus of \$100,000. The 10 per cent allowed amounts to only

\$10,000.

The direct examination of Emil The direct examination of Emil Smith, special agent of the department of justice, by Mr. Bootle was concluded at noon and for the remainder of the day Wallace Miller, representing the Holts, conducted a detailed cross-examination. Mr. Miller had not concluded when court recessed, and Mr. Smith will return to the stand Thursday morning.

Mr. Bootle began his examination of Mr. Smith Tuesday morning. The witness conducted the investigation of the Sandersville bank, and it was on information obtained by him that the indictments were drawn. He was the fourth government witness called

Mr. Smith showed by the records of the bank that an Auto Trading Company note of \$10,000 was discounted by the institution on November 26, 1927. The evidence showed that the original note was not available because of split-ups and renewals from time to time. Mr. Smith pointed out, however, that with a credit of \$1,830, the renewal notes were outstanding at the bank's suspension in March, 1929.

At the time of that transaction, Mr. Smith said, the O. J. May Auto Company—alleged by Mr. Bootle to be a "sham" or "dummy" partner-ship—owed \$8,350 to the bank. Two other Indianapolis trucks were in Atlanta at the same time waiting to go to Valdosta to load plants and return west

Commissioner Knight said that un til he made a more thorough exami-nation of the law he would not re-quire such trucks to be certificated in this state, even if they made more

in this state, even if they made more than one trip.

However, the commission maintained its position in connection with trucks operated by the Red Ball Express, one of which has recently been impounded here for failure to conform to the law. This truck, Knight explained, was engaged in hauling household goods both ways and was not entitled to the exemption provided for carriers moving agricultural products.

products.

Exchanges between the Indiana secretary of state and the Georgia secretary of state, George H. Carswell, over reciprocity availed nothing Wednesday. Mr. Carswell, replying to an invitation to waive regulation of trucks like the Red Ball Express, re-ferred Indiana officials to the pub-lic service commission.

### GLEE CLUB CAREER OF ROGERS AT END

George Rogers, baritone of the Emory Glee Club, will close his musical career at Emory Friday night when he sings the "Toreador Song" from Bizet's "Carmen" and the lead in the Pilgrim's Chorus from Wagner's "Tannhauser" as solo numbers in the annual Atlanta concert of the Glee Club to be presented at the Wesley Memorial Church auditorium. For four years Rogers has been one of the outstanding members of the organization. This year Rogers sang in the district Atwater Kent contest for young singers, winning first place.

# Black G. O. P. Picture Is Painted for Hoover

WASHINGTON, May 13.—(R)—Mrs. Nathauiel Thayer, republican national committeewoman from Massachusetts, painted a gloomy picture for President Hoover today of political conditions in the Bay

State.

The contest, she said, between factions in the republican party over a measure now pending before the state legislature authorizing preprimary caucuses, has brought about a bad situation in the party.

"Things were bad enough in Massachusetts," she said, "without somebody starting a fight at this time, It makes things look pretty bad for us in 1932. They were bad enough in 1928."

### "GROCER" NORRIS FREED BY COURT

LINCOLN, Neb., May 13.—(P)—
Perjury indictments against George
W. Norris, a grocer, and Victory Seymour, republican leader, based on
their testimony before the senate's
campaign fund investigating committee here, were dismissed today by Federal Judge T. C. Munger. The court
also held valid the committee's inquiry into the 1930 Nebraska republican senatorial campaign.

Demurrers filed by the grocer and
Seymour were sustained on a techni-

eymour were sustained on a techni-ality. Charles E. Sandall, United cality. Charles E. Sandall, United States district attorney, said the gov-ernment probably will seek new in-dictments.

The defense challenged the consti-

utional authority of the committee leaded by Senator Gerald P. Nye to

headed by Senator Gerald P. Nye to investigate a primary election campaign. Judge Munger held the inquiry was legal, but that the indictments failed to specify the mmateriality of the defendants' answers.

After Norris filed as a candidate for the republican senatorial nomination, in opposition to Senator George W. Norris, the serate committee conducted several hearings in Nebraska. The grocer's filing later was ruled illegal by the state supreme court because of its belated arrival, and his name did not appear on the ballot.

Grecer Norris told the committee he entered the race of his own volition, entered the race of his own volition, but later W. M. Stebbins, then state treasurer and also a candidate for the senatorial nomination, testified he gave Seymour \$500 to give the grocer

WASHINGTON, May 13 .- (P)-Republicans are looking with interest Republicans are looking with interest to the forthcoming speechmaking trip of President Hoover into Indiana, Ohio and Illinois, because he may say things that could have considerable weight in a renomination campaign.

There are some who believe he will emphasize economic conditions as an indirect answer to administration critics. What he has in mind is not generally known, but radio speeches last night by senators representing the re-

erally known, but radio speeches last night by senators representing the republicans, democrats and republican independents were interpreted as indicative of a trend.

All three—Senators La Follette, of Wisconsin, for the republican independents: Hastings, of Delaware, for the republicans, and Walsh, of Montana, for the democrats—dwelt largely upon economics. Neither of them mentioned prohibition.

La Follette outlined problems which he said "must be squarely faced." They included the depression, the tarriff, power regulation, farm relief and armament reduction.

Text of Ritchie's letter to Clift follows:

Allow me to congratulate you upon your election to the business superintendency of the Atlanta public schools. More than three and one-half billions of insurance are in force in Georgia today and annual premiums amount to \$65,000,000, Smith said. For this reason, he argued, insurance interests of the state want a competent commissioner and "not a politician." Two per cent of the insurance issued in the state today, he said, is "bootleg" insurance sold by companies which have not paid licenses and which are not qualified otherwise to write insurance.

Commissioner Urged.

Comptroller General Harrison, who appeared with the delegation, proposed the creation of the office of insurance commissioner and the employment of sufficient assistants to go about the state and enforce the regulatory laws. He lost four sons in the World War. Replying to speeches of Fernand Rabier, first vice president of the senate, who took the chair of the assembly to announce Doumer's victory, and of Premier Pierre Laval, the president-elect said:

"I am supremely touched by these felicitations. I rejoice that this assembly of representatives of the nation has been held with calm dignity and without striking any blow at my old friendships.

"I want to thank the parliament for this great honor and I am convinced that I am interpreting parliament in affirming that France intends to remain faithful to the policies of peace she has followed.

"Inspired by examples of a long list of predecessors, particularly by Gaston Doumergue who is retiring from the post which he filled with such distinguished authority, I shall seek, above all and outside all parties, to maintain that peace at home and abroad which is ardently desired by all French people."

BERLIN, May 13.—(P)—The Berliner Tageblatt and the Vossische Zeitung, Berlin liberal papers, tonight were pessimistic in their comment on the failure of Aristide Briand to achieve the French presidency.

"May 13 must now be reckoned a black day for French politics," the Tageblatt said.

The Vossische Zeitung declared Briand's failure was caused by petty parliamentarians, distrustful of a man of his caliber, who is rare in post-war Europe.

"There is no one in Europe to succeed him," the Zeitung added. "Should he make good his word and resign as foreign minister, the loss would be irreparable, and not to France alone."

The will, which was filed for probate today, gave no indication of the size of the estat, other than the conventional "more than \$20,000." Estimates since the financier's death May 2, at the age of 91, have ranged as high as a half billion dollars.

The dean of American bankers, who gave millions to the public during his lifetime, left \$5,000,000 each to two daughters, Mrs. Florence B Loew and Mrs. Evelyn E. St. George. These bequests were in addition to provision made for them during their father's life.

er, he left \$250,000 to the Protestant Episcopal Cathedral Foundation of the District of Columbia to build an addition to the Washington Cathedral. Recent news reports from Moscow telling of the plans of the soviet government to increase the production of cotton in Russia to such an extent as to make it unnecessary to import any of the fleecy staple, contain a warning that our growers must heed or face certain ruin.

In one of these reports it is declared that-

Nearly 6,000,000 acres will be planted in cotton in Russia in 1931, according to present plans. This is a 50 per cent increase in acreage over 1930 and the government hopes, by the use of fertilizers and better equipment to increase the crop 80 per cent.

By 1932 the government expects that cotton imports will entirely cease.

Coupled with this increase in Russian production, the growers are faced with the steady growth annually in the number of acres planted in Egypt, India, China and other cotton producing sections of the world.

ATLANTIC CITY, May 13,—(P)— Addressing the Pennsylvania Bankers' Association today, United States Senator David A. Reed, of Pittsburgh, accused congress of listening to propa-ganda for the removal of tariffs, the cancellation of war debts, unreasonable appeals of various groups and cowardice in dealing with the demands of World War veterans.

He declared congress had learned costly lessons in its attempt to control wheat and would learn another, which will soon be apparent, from the soldiers' bonus. He said the federal government at the end of the present fiscal year would show a deficit of close to a billion dollars partially as a result of its costly mistakes.

"I can not see how the cancellation of international war debts will aid in the return of national prosperity," as-serted Mr. Reed. "Since the debts will have to be paid by somebody, either the taxpayers of one country or another, our prosperity will not be aid-ed if the burden is shifted to the peo-ple who raised the loans."

Speaking of the war veterans, Sen-

The escapes followed a day of developments at the school which included the resignation of Mrs. Ira F. Champion as superintendent and the appointment of Mrs. Adams as her temporary successor.

Mrs. Champion's resignation followed a week in which 10 girls had rebelled and city police had been called three times to quell disturbances.

The rebellion began last Thursday night when the girls locked themselves in a dormitory after an attempt to escape had been frustrated. The girls finally were removed to the city jail.

WASHINGTON, May 13 .- Sun narizing the activities of the federal prohibition bureau for the month of April. Director Amos W. Woodcock reported today that Georgia continues to hold its front rank position among the states of the country in the number of stills and distilleries seized by federal agents.

The report showed that a total of 127 stills and distilleries were captured in the state during the month, together with 3,783 gallons of spirits and 1,359 gallons of beer. In addition 473 beer fermenters were seized Most of the equipment and prohibited beverages came from the northern judicial district, of which Atlanta is

Hikes to McPherson
The 29th infantry, of Fort Benning, arrived at Fort McPherson Wednesday morning, completing the first half of a 234-mile practice march from the infantry school post to Atlanta and return.

Major General Frank R. McCoy. commanding general of the Fourth Corps area, commanded the regiment following its march into the Fort McPherson reservation. Brigadier General George H. Estes, commander of Fort McPherson, extended his congratulations to Colonel Duncan K. Major, Jr., the regiment's commander, on the fine physical appearance of the soldiers and officers. The regiment is in camp on the Georgia National Guard's rifle range adjoining the McPherson reservation.

The regiment returns to Fort Benning Monday.

IN congratulating the winners in the great • Camel contest we want at the same time to thank most cordially the approximately million men and women who displayed their friendly interest by sending in an entry.

We wish also to thank the millions of smokers throughout the country for the appreciation they are showing for our new Humidor Pack as is evidenced by the notable increase in the sale of Camel cigarettes.

By means of this dust-proof, germ-proof, moisture-proof Cellophane wrapping the rich

aroma and full flavor of choice Turkish and mellow Domestic tobaccos have been airsealed in Camels for your enjoyment.

If you have not tried Camels in the Humidor Pack all we ask is that you switch over to this brand for one day.

After you have learned how much milder, how much cooler, how much more enjoyable it is to smoke a perfectly conditioned fresh cigarette, go back to the harsh hotness of stale cigarettes if you can.

# Sponsors Musical

An interesting event of the week will be the entertainment at St. Paul's Methodist church, Friday evening at 8 o'clock, sponsored by the central committee of the Woman's Missionary Society, for the benefit of the Sunday school building fund.

Mrs. John Lawrence Norton, widely known Atlanta musician, and organist of the church, is director of the affair, which includes a variety program by some of Atlanta's outstanding artists. Among them are James de la Fuente, brilliant young violinist; Mrs. Valeska de la Fuente, pianist; Miss Jean Dodds, reader, and the Sunshine Quartet, composed of J. H. Head, J. G. Rosser, J. Virgil Glenn, and Robert H. Castleberry.

berry.

In addition to these artists, there will be a novel presentation of 15 "Living Songs and Living Pictures," in which 40 young people will take

part.
Tickets may be secured at the door, or from any member of the St. Paul's Woman's Missionary Society.

# NORTH CAROLINA SOCIETY ANNOUNCES ANNUAL DINNER

# Affair To Be Held May 20 At Atlanta Woman's Club

Elaborate plans are being made for the annual dinner given by the North Carolina Society to be held Wednesday evening, May 20, at 7:30 b'clock at the Atlanta Woman's Club. A number of distinguished speakers will address the members on this occasion, including Dr. Sam Small, of The Atlanta Constitution. Other features of the interesting program being planned for the dinner will be musical selections given by gifted artists

The North Carolina Society was formed in Atlanta some years ago a small group, and maintains a membership of more than 300 members who were born in the old North State. All citizens of Atlanta whose birth-place is located in North Carolina are eligible to membership. In addition to members, others who claim North Carolina as their native home are invited to attend the dinner, which will be held on the occasion of the annual celebration of the Mecklenburg Declaration of Independence. W. B. Schwartz is president of the local North Carolina Society and Miss John Bowle has held the position of secretary for a period of three years. Reservations for the dinner can be made by telephoning Miss Bowle at Hem-

### Pi Omicron Program.

The program for the Alpha chapter of the Pi Omicron sorority meeting this evening at 6:30 o'clock in the Poplar coffee shop, features interesting sketches, readings and discussions. Mrs. Richard Battle, program leader, will give a summary of current news items and interesting commentary on personalities which hold the attention of the world today. The first number, a sketch of John Bunyan and excerpts from "Pilgrim's Progress" will be given by Miss Fan-nie Sue Bailey; the second, "Jonathan Swift and Stella" is assigned to Miss Idellah Bellah. Miss Elsie Bolen will conduct her audience on the most thrilling of "Gulliver's Travels" and Miss Eloise Bowie will explain why Ibsen's "Doll's House" is of interest

Absen's "Doll's House" is of interest wit the present time.

A sketch of Mary E. Wilkins Freeman by Miss Ethel Guerry will be followed by a sketch of Samuel Butler by Mrs. Margaret Culler. The readings to be featured are "Growing Old" and "Waiting" read by Miss Martha Burns, and "Eve" read by Miss Mary Poole. As the concluding items, Miss Margaret Richards and Mrs. Ella B. Ray will discuss the peculiarities of Leo Tolstoy and his wife.

West End B. Y. P. U.

The B. Y. P. U. department of the West End Baptist church will have 'a workers' council Friday, May 15. at 6:30 p. m. The meeting will be held at the church and supper will be served before the business session. The special feature of the meeting will be a debate on the subject, "Resolved, That B. Y. P. U. officers 'should be elected in April and October instead of in January and July." The affirmative side will be debated by a member each from the Jameson and the Purser unions and two members sef the Archone union will uphold the negative side. Thirty minutes of the time will be given to business sessions of the individual unions. J. Edgar Longion is director of the B. Y. P. U. department and Miss Pauline Barton is associate director.

WAYCROSS, Ga., May 13.—"What Shall Our Club Record Be?" was the subject of a thoughtful address to brought to the biennial council of t. Georgia Federation of Women's Clubs at Waycross Wednesday morning by Miss Emily Woodward, editor of the Vienna News. "Is our federation in danger of becoming a great business machine that has lost some of the lofty ideals for which it was founded? Are women's clubs functioning on as exalted a plane of self-improvement and achievement as they once did? What are clubwomen doing to make better their homes, children, natural resources and political life? Are we sure the way we are traveling is 'an upward climb?" were some of the questions Miss Woodward said, should be squarely faced as the arswers would be passed upon by the editor-in-chief of the world's program.

The opening business session featured the annual report of the presidents were pledged to acquaint the women of the state want county libraries for themselves and their children.

USE Kleenex instead of handkerchiefs. That's the advice of medical science today. Take no chances with dangerous self-infection. Use a handkerchief you can destroy.

Kleenex is a soft, absorbent tissue. The size of a handkerchief. So inexpensive it is used just once, then destroyed. With it go countless germs. The germs that cause self-infection when carried back to the nose and mouth. The germs that may lead to serious diseases.

By using Kleenex instead of handkerchiefs you avoid this danger. Each time you select a new tissue-exquisitely clean and fresh. Softer than the oldest linen.

> Costs less than laundering

The use of Kleenex does away with the unpleasant job of washing handkerchiefs. Surprisingly inexpensive, too. Kleenex actually costs less than commercial laundering of

FLIP SEES LONGFOOT.

BY THORNTON W. BURGESS. That is which is, and naught can change fact, though it be passing

strange.

—Old Mother Nature.

Several times when out with his master Flip the Terrier had discovered queer mounds of sand which had aroused his curiosity because they had entrances opening level with the ground, and when he sniffed re those entrances he smelled Rat. If it wasn't Rat smell it was something very like it. It wasn't just the scent that Robber the Rat used to leave around Farmer Brown's barn, but it was enough like it to get Flip much excited, for he dearly loves to hunt Rats. He would bark and dig furibusly, but his master never would wait for him, and so he would have to give up and hurry on.

Just then out of a hole more than two feet from him was poked a head. For a moment or two the Rat sat in his doorwoy looking out as if a bit ered queer mounds of sand which had

his doorwoy looking out as if a bit suspicious. Then he came whooly out and Flip prepared for a rush. But instead of rushing Flip just stood instead of rushing Flip just stood still right where he was and stared. This was the strangest Rat ever he had seen. To begin with, the color was all wrong. If was buff or yellowish, with a white line across the hips. The legs and feet were white, beautiful snoysy white. The white band across the hip on each side was continued down each side of a long tail for some distance, and this tail, instead of being almost bare like the tail of Robber the Rat, was covered with hair. It was black on the upper and lower sides and ended in a tuft of pure white. Instead of a rough coarse coat such as Robber wears and takes no care of the stranger wore a find silky coat. In each cheek opentakes no care of the stranger were a find silky coat. In each cheek opening from the outside was a pocket lined with fur. This, however, Flip fidn't see.

lined with fur. This, however, Flip lidn't see.

All this was suprising enough, but almost at once Flip received another and greater suprise. The stranger started off and instead of running as Robber would have done he moved in a series of jumps, and Flip discovered that his front legs were very short, while his hind legs and feet were very long, and when he jumped that long tufted tail helped him to keep his balince. Flip was too astonished to move. Yes, sir, he was too astonished to move. He just stood there staring. Could it be that he saw what he seemed to see? He blinked and looked again. Yet, it must be that he saw what he thought he saw. He did. He was looking at Longfoot the Kangaroo Rat. (Copright, 1931, for The Constitution.)

TALKING IT OVER BY CAROLINE CHATFIELD

Problems of general interest submitted by readers will be dis-cussed in this column. Correspondence invited. Your name held in confidence. Write Miss Chatfield, care The Atlanta Constitution.

Girls, you who care for men who do not care for you, are afflicted with disease which, in common parlance, is known as unrequited love. Nobody can cure it but you, yourselves, you who suffer.

There are some paliatives, some aids to health in the heart, but you must prescribe them and you must follow your own prescriptions.

The first of these is hard work at some subject in which you are vitally interested. If you can attach that interest to the saddle of some Lochinvar who will surely ride out of the east or west, or north or south, the quicker will your pain disappear. Another is the will, fallaciously called by some male psychologists and philosophers, free will. The man's will and the woman's will are very different. In the case of the woman it is stoutly chained to the organ involved—the heart—so it is necessary to pull it loose before you can use it effectively.

If I were to answer each of the letters that come to me on this topic nobody but the love-lorn would read my column. Consequently, it becomes necessary to an-Dear reader, if your letter is one of these, count this

You can't make a point with a man about his love. You either have it or you don't. He doesn't understand any better than you do why he caunot give it to you. But he can't. I once heard a young man say he had tried his best to fall in love with a very rich girl who was conveniently in his way but after trying two years he had given up. That is one of the inexplicable, and at the same time, beautiful things about romantic love. It is not ulterior, it is not designing, it is not selfish. Like the charity of the famous scripture, it is not easily proveked. Like Shakespeare's mercy, the quality of it is not strained. # Slumbering Cracker Bats Wake To Blast Travelers Aside, 5-1; Weather To Play Huge Part in Running of Derby, Danforth Says

# FOR ANDY, 5-1

Messenger Hurls Well. Poco Taitt Homers As Streak Breaks.

By Ralph McGill.

Those slumbering guns in the Cracker arsenal boomed Wednesday afternoon and the Crackers won their only game in three played from the Little Rock Travelers, 5 to 1.

In the booming was one big one, coco Taitt, the league's leading hitter, knocking one over the right field fence for a home run, the first home run of the season over the little green fence in right field.

No one was on base at the time, but the fans raised quite a hullabaloo. That fence was just a useless deco-ration until Poco Taitt poked one

The Travelers, after taking two straight from the Crackers by one run, sent Bill Hughes, a tough pitch-er, in there to win the third and final

Messenger pitched a noble ball game, allowing only four hits, one of them being an infield bunt which French outfooted.

OLD-FASHIONED. The Travelers played old-fashioned baseball to get in their one tally. They bore down hard in the eighth when Messenger had his feet on the handle-bars coasting a bit.

A single by Barnacle Bill Barnabe, pinch-hitting for Hughes; a sacrifice by Nicolci and a double by Harry Strohm, manager and the best third baseman in the league, got in the run. Mule Shirley was "My Mule" or "My Horse" (how insidious this Derby influence is) to the fans out there Wednesday. The Mule played a magnificent baseball game. He drove in two runs with his three hits and fielded like the devil scooping lost souls into perdition on a busy day. Once he went away over yonder to grab a fly foul from Buck Redfern's bat. At all times he was fielding well. ON THE TOP.

The Mule has found himself and is playing ball. When he is in shape there is nothing that can be said about him except that he is the best first baseman in the league. Which is plenty to say.

The Crackers got three tallies in the first inning. Barron and Sheehan singled in succession, Taitt grounded out but Carlyle was walked, filling the bases. Shirley came through in the pinch with a single to score Bar-

when Buck Redfern, relaying the ball in, tossed it wild. Sheehan and Taitt both scored. It was a very for-tunate error and put Messenger out in

MORE RUNS.

The fifth and final Cracker run came from that Brobdingnagian blow by Poco Taitt, the Idaho potato masher, who is back on the job.

Bob Lamotte played a great game at third base. The veteran from Savannah fielded senastionally but went hitless. He replaced Amos Martin, the one-time Petrel, for the day. Martin has been pressing too much trying too has been pressing too much, trying too hard, and was making too many errors

JONES IN CAMP. Bobby Jones, former Reading Key, arrived Wednesday. He is a third baseman. Jones looked great in hitting and fielding practice. He will not be put in the lineup until he has been on the field a day or so. He is expected to the field a day or so. He is expected to go in at third base. Saturday should see him in action. If not Friday.

The Crackers are down to the limit and will make no cut in the squad until Jones is placed on the roster.

POKER, BRIDGE, ET AL.

Speaking of winners, those present the other night in the Pullman smoker—two drummers and two banjo players from Atlanta—fell to talking about investing, wagering and gambling.

It was the sense of the conference that folks have oddly divergent attitudes toward the various forms of risking money on games of chance.

For instance: One passes the card room at the club and oks in. He sees Weatherford Buggs playing bridge.

"Weatherford plays a remarkable game of contract," one says. "I have never seen such a keen mind as his. He plays day in and day out for 10 cents a point and there is no telling how much he wins. Yes, Weatherford is a marvelous bridge player."

Passing on one glances in another room where a stud poker me is on and observes: "Look yonder at old George. Humped over playing poker. It is just a 10-cent limit game, but you can win a lot of money at stud poker at that rate. But one of these days gambling will get old George just like it has gotten so many others." And one sighs sympatheti-

cally over the waywardness of this sinful old George. Now there are two games played with the same cards. One considered a game that tests mental skill. The other is gambling in a pernicious form. Personally, I think it takes far more intelligence, knowledge of cards and the laws of chance, oldfashioned courage and sportsmanship to play a good game of stud poker than a good game of contract. But that may be

THERE'S A DIFFERENCE.

passed as an immaterial comment.

Again, one who invests in the stock market is considered a business man. If the stock he bought at 35 jumps to 97 next week and he sells, he is hailed as a financial genius. And it still is a matter of great pride in some circles that "we were wiped out in the crash.'

But those who invest two dollars in the chance that a certain horse will win a certain race are gambling. Laws are sought against it. Wagering on horse races is the hardy perennial in the reform garden.

The only difference between playing the stock market and the races is that you get sudden action at the track, whereas you do not learn the bad news for months, sometimes, in the stock

This discussion shows how learnedly men employ their powers of ratiocination in Pullman smokers. It was finally the decision of the conference that gambling was morally and economically wrong, no matter what form it might take, but that the world was tee-totally wrong in making such silly distinctions.

Taitt and Carlyle singled in succession in the third, Carlyle's moving Taitt to third, from where he scored on an infield out by Shirley.

The fifth and final Cracker run that Brobdingnagian blow Which naturally brought up the question of whether Twenty

DEFENDING THE OLD HONOR.

In the lobby of the Brown hotel I encountered Herr Max Schmeling, whose term as world's heavyweight championship has only seven weeks to run.

"Vie befinden sie sich, Herr Max," I greeted him cherrily in his native tongue. "Haben sie any idea who the Derby will win wurden."

Herr Max instantly fell into fighting position-left hand extended, right hand cocked-but relaxed when he saw my wide smile and signaled for Yussuf Yacobs, his manager, who does

Jacobs rushed over and prevented a scene. In another moment I might have called off the Stribling fight. Mocks could not possibly have gotten his hands in shape by July 3 if we had come to blows.

"You see," Jacobs went on to explain in perfect Milt Gross The squad must be down to 18 men by Friday's game. The Crackers have a number of men they are trying to place but with no success to date. The Memphis Chicks are with us tothinks everybody is trying to kid him."

These notable mounts, Gulf Breeze, Golden Melody, King Cole and Peter Pindar, are owned by Mrs. W. I. Moody III, of Galveston, Texas. They will be shown in Atlanta by Miss Marjorie McLeod, who formerly made her home in the city and who enjoyed wide popularity both as a social favorite and a brilliant horsewoman.

The haul from Galveston is the longest ever made for entry into the Atlanta horse show. It marks the initial appearance of the Moody horses in the Piedmont Park show ring.

Among the local entries received yesterday were those of Mrs. Luther Z. Rosser's Dolly; Dr. Bernard McH. Cline's Lady Killarney, Betty and Peewee; Charles H. Cox's Chilton Mrs. Jackson P. Dick's Brown Bess, and the Avondale riding stables' King, Buckeye, Sandy and Sun Up, owned by J. W. Grahl.

The entry list closes tonight at midnight, and scores of entries are assured in the final day's rush. The number of entries already checked in at headquarters far exceeds last year's list. More civilian mounts are showing and divigors strings are conving from

list. More civilian mounts are showing and bigger strings are coming from the various military units participat

ing in the show.

The advance ticket sale is gaining impetus and all indications point to a brilliant event. As sponsors for the show, members of the Young Matrons' Circle are conducting a vigorous selling campaign for box seat and grandstand tickets, orders for which will be received and handled at horse show headquarters, Room 332 Piedmont hotel.

Mrs. Eugene Harrington, general chairman for the circle's horse show participation, is likewise chairman of the box seat sale. Assisting her are Mrs. A. A. AS RACE NEARS Condition of Track Will Determine Number in Starting Group. By Ed Danforth.

Sports Editor.
LOUISVILLE, Ky., May 13.—My selection to win the Kentucky Derbysis Professor Kendall. At least he will be the one to be t.

The Professor, in case you have not noticed his name in the list of probable starters, is the local von Herrmann, the chief of the weather bureau. All the experts have thrown up their hands and jobs and have put it strictly up to Professor Kendall.

This is what I mean: Every prediction in public print or paddock patter is qualified with weather conditions. This or that noble nag will win or lose if it rains or shines, respectively, and vice versa. Twenty Grand, the big bruising bay, unloaded here from Pimlico in superb condition and has taken a blowing out spin around the track. But the belief is that if the oval is filled with gumbo, as it is at this writing. Twenty Grand will not be in sight for hours after leaving the post.

On the other hand, Trainer Freddie Hopkins, who nurses the exgreat Equipoise, is frank to admit that his only hope of winning is over a muddy track. He does not care how much it rains and how much gumbo accumulates between the two fences.

FAIR TIME.

Equipoise was sent out today while

Equipoise was sent out today while a futile sun played hide and seek behind heavy clouds and worked ... mile and one-eighth in 2:02 1-5. It was fairly good time for the gummy condition of the track.

But Equipoise looks thin and ratty, like an underfed police dog. Something has been lost from the great 2-year-old of 1930. Unless a heavy track slows the others down to a trot. Equipoise may never get home,

2-year-old of 1930. Unless a heavy-track slows the others down to a trot, Equipoise may never get home, or so stable connections fear.

Of the eastern stars who are believed to have this Derby as good as wrapped up for mailing home, this big, red chestnut colt Mate looks best. He unloaded from his special car in fine condition. His handlers say hashows no more concern over traveling than a shoe drummer. Mate is directly to work tomorrow. Mate prefers a fast track—there goes the weather angle again—but is not exactly averse to mud baths.

Now there is Mrs. J. N. Crofton's Up, the winner of the Agua Caliente handicap. This animal—the colt I mean—will not start if the track is dry, they say. And on the other hand, Ladder, the flashy Walter Salmon sprinter that ran third in the Preakness, will not venture out of the barn if there is a chance of getting his feet muddy.

Pittsburgher, the representative of the Shady Brook Farm, went out yesterday in mud fetlock deep with smooth plates on and beat Spanish.

smooth plates on and beat Spanish Play and Sweep All. Pittsburgher wore no mud shoes, I mean. He was handicapped as a football player would be on a muddy field without mud handcapped as a football player would be on a muddy field without mud cleats, yet he came right on in a shower of chocolate eclair filling to beat them. Certainly Pittsburgher is the most consistent of the western colts and would prefer it to be muddy Saturday.

And what will it be? Ask Professor Kendall, who will determine the winner of this fifty-seventh Derby. He does not know, but he will have a lot to say Saturday.

a lot to say Saturday.

DOZEN STARTERS.

So in the face of all this climatic uncertainty the field for the fifty-seventh Derby appears likely to include not more than one dozen starters. In case the present prospect of heavy footing prevails Saturday perhaps only ten will answer the bugle. A concentrate of the gossip tonight is that the following will start, the probable jockey being listed after each horse: Mate, G. Ellis; Twenty Grand, C. Kursinger; Surf Board, L. McAtee: Anchors Aweigh, E. Steffen; Ladder, L. Schaeffer; Equipoise, R. Workman; Sweep All. E. Pool; Pittsburgher, C. Corbett; Insco, S. O'Donnell; Spanish Play, Fronk; Up, V. McHugh. Those 11 with the chance of another being added from the list of eligibles most likely will comprise the field if weather conditions are favorable. If a muddy track prevails, ask Pro-

LOUISVILLE, Ky., May 13.—(P)
Now that all preliminary races have

Should the entries be 14 or less,

its operation so far during the meeting has been highly satisfactory to
turfmen and the public.

Equipoise, leading two-year-old

and Ladder worked shorter distances.

cam demonstrated that he was superior in all departments of play in the first set, although he departed from his usual mode of centering his attack on his net game. He chose to remain in the back court essaying a met attack only two times during the set. This set was notable for its fine base line play, the two contestants maneuvering for position for fast placements. In this set Reese won his service only once.

In the second set Reese showed marked improvement and took the lead at 5-3 and 40-15 on his own service. He was unable, however, to pull the set through to his credit and of cam finally won at 10-8 although Reese twice after was within a point of set. Cram came to the net more frequently in this frame and won many decisive points on clever placements and smashes.

In the third set, Reese at once took a four-love lead but Cram steadied and by dint of fast drives, chops and serves, pulled the score to four-all and then to victory in the match at 6-4. At all times the match held the close interest of the sizeable gallery.

In the morning match Cram and Malone were defeated by the superior Boys' High team of Reese and Tumlin. In this match Tumlin teamed with Reese exceedingly well to put up an excellent exhibition of tennis that

If Loughran succeeds in getting past the Argentine giant, he will be in direct line for a title chance and competitors in the two "world's heavy-weight championship" bouts scheduled this summer could not hope to win universal recognition until Loughran was eliminated.

# TRACK RECORDS

Given Good Weather, Stars Are Certain To Topple Mark.

BIRMINGHAM, Ala., May 13.— (P)—Given a little sunshine, the records are due to fall in the annual Southern conference track and field carnival at Birmingham Saturday. For the past two years the annual meet has been marred by rain. Last year a cloudburst descended on Legion field just two hours before the competition was scheduled to start.

Not a single record was broken in 1930, largely because the races were run in water ankle deep in some places. And the weight men and jumpers could not secure firm footing for their acts. clash were below prices that will be asked for the professionals, and this will also mean a difference. There seems to be plenty of money around for the \$1 and \$2 attractions, but there won't be so much for the larger tax. their acts.

With a record field of 20 teams and more than 250 athletes, combined with unusually good performances in the many dual meets of the season, all indications point to a field day for the record-breakers.

DARK HORSE.

While the experts have been writing of the strong teams from North Carolina, Tulane, Auburn, Louisiana State, Florida, Alabama and Georgia, Bill Tilden and Vinnie Richards have presented their first two shows but main interest now is beginning to swing back toward the amateurs. In addition to the Davis cup outlook, which shows the French are still fa-vored by a slender margin, there is little mention has been made of a dark horse contingent that is likely to roll up plenty of points.

Mississippi A. & M. enters the event the role of a dark horse. The Starkeville Aggies surprised the wise boys last year by finishing third, just behind Georgia. The Mis-sissippians have another strong team and they'll bear watching.

Alabama, looked upon as one of the best squads entered, barely beat the Aggies, 60-57, in their recent compe-

Cox, who won the shot put last year, is in fine form again and has tossed the iron ball nearly a foot be-yond the present conference mark. By that time such young stars as Shields, Wood, Sutter and others will be far enough along to make even Cochet hustle to the finish. The American Davis cup team is fairly sure to reach the challenge round, but flowers is a crack hurdler and a like Flowers is a crack hurdler and a like-ly point winner in both timber-top-ping events. Both Fafferty and Cox have thrown the discus further than the mark with which Coleman, of Auburn, won first place in the 1930 meet. A STRONG ENTRY. From the northern tip of the conference comes word that the University of Virginia, which recently won the "Big Four" track championship of the Old Dominion, will send a strong team to the track carnival Saturday.

Virginia has not competed in the conference meet since the site was moved to Birmingham, but the Cavalier squad is of such strength this year as to warrant the team making the long trek.

Virginia has not been beaten by a conference rival in any out-of-door meet of any size since 1927. The 1931 squad is well balanced with strength both track and field events. Captain Wisner has competed in 1: captain Wisner has competed in 11 events this spring, winning all of them and taking high scoring honors in each case. He holds the state conference records in both the century and furlong and also in the broad jump. He probably will be the favorite in the jump event since his leap of 24 feet 31-2 inches is better than any other this season.

Just what the difference is between baseballs used in the two big leagues has not yet been definitely established. The five leading A. L. hitters average over 70 points above the five leading N. The American league ball looks a trifle livelier, but mid-May is no spot to prove any clear-cut certainty.

"From Fredersdorf. Of the Sax onia Cotton Company. I'm from Fredersdorf, too," the man put in. "Why, yes," said the porter, consulting his memory, "there is a Herr Preysing who's been here once or twice."

"I believe he has a room reserved for tomorrow or the day after," Georgi whispered officiously.

"Perhaps you would be good enough to look in again tomorrow, when Herr Preysing is here. He arrives tonight, said Rohna after he had turned the pages of his register and come upon the reservation of the room.

"Arrives today?" he exclaimed as though in alarm, and his voice grew a little shriller. "Good. And there's a room for him. Then there are rooms to be had. Yes, and why should Herr Generaldirektor have a room and not I? What does that mean? I shall not put up with it! What's that? Reserved in advance, you say? Well, so did I. This is the third time I have been here. The third time, if you please, I have lugged this heavy bag along here. It's raining. Every bus overcrowded. I am not in good health, I may tell you. And how many more times and I to make this journey? What's that? That's no way to talk. Is this the best hotel in Berlin. Is it forbidden?" He looked from one to another. "I'm tired." he added. "The tired out." His fatigue was obvious, and so was his ridiculous effort to express him self in correct style.

Suddenly Dr. Ottenschlag intervened in the discussion. He had been standing near by all this while, with the key of his room in his hand, resting his sharp elbows on the porter's desk.

Of interest to radio amateurs the world over is the appointment as technical advisor to the United States delegation of one of their number, Major Kenneth B. Warner, who 's secretary of the worldwide amateur federation, the International Amateur Radio Union, as well as of the national organization, the American Radio Relay League, and editor of the amateur's magazine, "QUST."

THIS APPOINTMENT provided opportunity for the representation of amateur radio, the largest interna-tional transmitting group, as the way out of an anomalous situation creat-ed by the failure of the regulations governing these meetings to provide for representation of amateurs.

It is repetition of a precedent established when preparations were being made for the summer 1929 meeting at The Hague. While provision had been made permitting all governments and radio bodies and every form of commercial radio to have representatives in attendance at these

National guard planes—99 in all—coming from 18 states, were delayed by bad weather which hampered flying from Illinois to the east coast. It is the first time since the World War that national guard fliers have been called on to fly beside pilots of the "regulars."

More than 100 ships left San Antonio today for Dayton. En route they split into two groups. Transport and observation planes set out for Fort Sill, Okla., while a group of bombers were on their way to Shreveport, La., where they headed north.

NEW YORK, May 13.—(49)—The involved bank accounts of Henry Miro, "king of the policy racket" in Harlem, and his inability to tell of the \$1,250,000 which passed through his hands in four years, brought about his arrest on a charge of perjury today. He was held in \$15,000 bail for a hearing Friday.

The arrest was made a moment after he had taken the stand for the afternoon session in the investigation into the magistrates' courts of New York. He had spent the morning under cross-examination, and both the prosecutor and Commissioner Samuel Seabury, who is conducting the inquiry, had expressed annoyance at his apparent reluctance to explain his financial operations.

Fifteen years ago, when he was 16 and had "less than a dime to my name," Miro came to the United States from Porto Rico. He spent eight years as a common laborer, and then became interested in the "policy game" or "numbers racket."

The game consists in the sale of tickets each day and the payment of extremely long odds to winners. The witners are those who guess certain digits in the day's treasury report, or other statistical statements.

In Harlem, the negro colony o' New York. "numbers" flourished. Even though the individual tickets usually sold for only a few cents, Miro was able to put away \$14,000 in 1927. \$235,000 in 1928, \$380,000 in 1929 and \$621,000 in 1930.

The perjury charge was based or the allegation that Miro, when he was a witness before Commissioner Seabury, who is conducting the inquiry, had expressed annoyance at his apparent reluctance to explain his financial operations.

TORREON, Mexico, May 13.—(P)
The slaying of three men and a woman by Mexican bandits at the Raymundo resort, near here, was being investigated by police today. Six men were held on murder charges.

Fifteen men, heavily armed, broke into the resort last Monday, a servant, the only survivor of the attack, told police, and demanded money.

Miguel and Vicente Ortega, owners of the place, resisted the bandits and were shot down. Mrs. Ortega and Juan Cruz attempted to escape and also were killed.

The six men held were arrested at Los Angeles ranch.

BY JOHN L. COOLEY. NEW YORK, May 13 .- (A)-Professionals seemed to have the stock market well in hand today. Industrials dropped with the rails after the opening, regained their losses and their joined the merchandising and chain store issues in an afternoon rally which also softened the declines among the carrier issues. However, among the carrier issues. However, bears used the higher prices for their take-off on a late selling drive, which more than eliminated the improvement. Net losses, however, were small and total sales were only 1,600,000 shares.

shares.

With the notable exceptions of Union Pacific, Atchison and Baltimore & Ohio, virtually all of the rails reached new lows, U. S. Steel dropped

reached new lows. U. S. Steel dropped under its previous low on the final transaction, closing at 109 1-2, off 1 1-2.

Woolworth was buoyant, soaring 3 points to a new high and holding two-thirds of its rise, helped by the proposal for a stock dividend and capital adjustment by the British subsidiary. Westinghouse and Johns-Manville firmed, but there were small net losses in American Can, Radio, Allied Chemical, Anaconda, Union Carbide, Consolidated Gas and Texas Corporation. American Telephone dropped 2

The undertone of the money mar-The undertone of the money mar-bets eased, partly because the 1 1-2 per cent stock exchange renewal rate brought out more funds and partly because of another cut in bankers' ac-ceptances, the fourth in three weeks. The reduction was initiated by the Federal teserve bank, which took an eighth of a per cent off its bill buying rate apparently in an effort to enliven the dull acceptance mar-ket.

The mid-week business news was mewhat less negative than in the recent past. Iron Age said steedemand showed a tendency to "leve off rather than to decrease further, and that the decline in ingot outpu which began late in March "had bee arrested." Production for the country was estimated at 47 per cent of caracity, unchanged from last week Top-grade bonds continued to profiby investment demand but second grade issues, whose action is being closely watched, did not do so well Wheat closed steady, up 1-4 to down 1-4.

### FOX ANNUAL MEET AGAIN POSTPONE

NEW YORK, May 13.—(P)—The annual meeting of Fox Film Corporation, postponed twice previously, has been put off until June 10.

The meeting was to have been hel Friday, and it was explained that the delay has been due to the fact that the company's auditors could not complet their work on the books until after auditors for the bankers had finished. It is likely the annual report will here. auditors for the bankers had linished.
It is likely the annual report will be
out by May 25, and the June 10 date
would comply with the New York
Stock Exchange requirements that the
statement be issued 15 days before the

THE SERVICE WE RENDER

In recommending securities to its clients, Moody's Investors Service is free to choose from the whole list of issues. It has no interest in any security, except as a medium for building up the investment accounts it supervises.

Only with this freedom from any other allegiance does this organ-

ization feel capable of giving competent and unbiased investment counsel. Only in this way does it feel free to face the facts that it so carefully collects and studies to determine the merits of various issues for each investor. Today, some eighteen thousand banking institutions and conservative investors are profitably following this unbiased advice. With its aid, they are securing protection against capital losses, sound appraisal of true investment values, and an opportunity to share in the legitimate growth of business and industry.

currents marked the bond market today.

Gilt-edge issues of all descriptions
were consistently firm and some of
them even reached new peak levels
for this year. The more volatile obligations experienced varying degrees
of weakness. A number of them
closed substantially above the day's
bottom prices and in a few instances
with net gains.

United States government obligations were quiet until the latter part
of the trading session, when they became active and they closed generally
higher.

higher.

First-class corporate issues such as Union Pacific 4s of 1968, Southwestern Bell Telephone 5s of 1954, Public Service Electric & Gas 4s of 1971, Canadian National Railways 4 1-2s of 1957 and 4 1-2s of 1968, Bell Telephone of Pennsylvania series B 7s, and American Telephone debenture 5s of 1965 and of 1960, all reached new high prices for this year.

The sharpest fluctuations occurred in foreign issues which closed irregularly lower.

BUILDING—Bradstreet's believes construction probab'; will be one of the first major industries to recover from the depression. The forecast is based on the fact that building permits in 215 leading cities in the United States showed an increase of 6.4 per cent from March to April, against an average seasonal decrease of 1.5 per cent. Furthermore, April this year showed an increase of 57.5 per cent over January, as against an average seasonal increase of 57.5 per cent. The April total, as reported to Bradstreet's from 215 cities, was \$151,206,846, against \$142,107,807 in March this year and \$179,811,014 in April a year ago.

copper—A reduction of a quar-ter of a cent a pound in the export price of copper stimulated demand and buying for foreign account rose to 3,000,000 pounds in half a day's session. The reduction brought the export price to 9.255 cents a pound, c. i. f. European base ports, on a parity with 91-4-cent copper in the domestic market. Domestic copper continued available at 9 cents, but buying was small

SILVER-Bar silver maintained its Strength in the two primary markets, advancing an eighth of a cent in New York to 283-8 cents an ounce, and a sixteenth of a penny in London to 133-16 pence.

# Bonds and Business

The two are inseparably linkedand it is the self-imposed task of our Statistical Department to know about both, to have always available not only the record of the past but the probabilities of the future. . . . You may find this knowledge helpful in determining your own investment program; it is yours to utilize, if you will.

BETTER RAIL EARNINGS. professional bears who have been pounding the stock market for more than a year have turned bullish temporarily. This is the best news that Wall Street has received for months. It was the cessation of this bear pressure that caused impressive strength at one time during the day and gave rise to hopes of the inception of a substantial rally.

The higher prices recorded, however, were utilized for the sale of stocks in the late afternoon so that the early gains were lost and in most instances replaced with small net losses.

The quarterly report published by the New York Central continued to the New York Central couching a new low price and Delaware, Lackawanna & Western registering a new bottom figure for the year.

Because of the upturn in carloadings during April, however, the statements of earnings for that month are expected to show improvement. This is declared to be particularly true with regard to the New York Central couching a new low price and Delaware, Lackawanna & Western registering a new bottom figure for the year.

In order to make this reflector two smaller quartz reflectors had to be ed the lowest rates in history, some manufactured so that imperfections of which are designed especially for that might possibly occur in the fin- vacation travelers. ished work could be avoided.

By studying the building up of the smaller ones, experts in charge of the construction of the 200-inch reflector said they expected to avoid imperfections in the larger one.

The problems facing those manu-

ficult. A 22-inch mirror was lirst actempted.

Molecules of melted quartz were sprayed continuously on a disc inside a fiery furnace, where the heat was one-third as great as that of the sun.

When the quartz coating was five-eighths of an inch thick the cooling process was started. This had to be done slowly, a degree at a time. The annealing took two weeks.

The experiment was declared a success and provided quartz smelters with the knowledge necessary to attempt a reflector on an even larger scale.
